**FINDINGS OF FACT
CONCLUSIONS OF LAW & ORDER**

On Monday 13 October 2008, the Vermont Board of Nursing (Board) heard this contested case of alleged unprofessional conduct. The State of Vermont brought a Specification of Charges ("Charges") against Respondent Mary Kim Schober. Board members Kenneth W. Bush, Jeanine Carr, Donarae Metcalf, Sandra J. Norton, Linda M. Y. Rice (Chairperson), Deborah Robinson, Alan H. Weiss and William White were present and participated in the hearing. Board member Ellen Leff recused herself from the proceedings.

The Respondent appeared on her own behalf. Edward G. Adrian represented the State of Vermont. Board counsel Kevin F. Leahy presided.

Summary:

This matter arises out of allegations of unprofessional conduct related to Respondent's alleged failure to abide by the terms of a conditioned license. The State charged that the Respondent engaged in unprofessional conduct in violation of 3 V.S.A. § 129a (a)(4). After a review of the full evidentiary record, the Board found that the Respondent engaged in unprofessional conduct in violation of 3 V.S.A. § 129a(a)(4) by violating Board ordered licensure conditions.

In light of the Board's findings of fact and conclusions of law, it voted to suspend the Respondent's license to protect public safety

Findings of Fact &
Conclusions of Law:

1. The held a Board issued State of Vermont registered nursing license.
2. The Board licenses the Respondent and may exercise its disciplinary authority if the Board finds that the State has proven allegations of licensee unprofessional conduct. 26 V.S.A. Chapter 28; 3 V.S.A. § 129(a); the Admin. Rules for the Bd. of Nursing and the Admin. Rules for the Office of Prof. Reg.

3. The Respondent admits, or does not deny, many of the factual allegations set forth in the Amended Specification of Charges filed by the State of Vermont on 17 September 2008.

4. The primary factual allegations contained in the State's Charges are that the Respondent was:

- (a) The Board suspended the Respondent's license on 27 March 2002 for diversion of controlled substances for her place of employment.
- (b) Respondent's license was conditioned pursuant to a stipulated consent order (the "Order") approved by the Board on 17 March 2005. On or about March 16, 2007, the Board modified the Order relative to supervision and employment.
- (c) The conditions require random drug and alcohol screens.
- (d) The State alleges that participation in the random drug and alcohol screening process requires the Respondent to call in to the specimen selection system on a daily basis.
- (e) The Respondent failed to participate in the random specimen program by not calling into the screening services multiple times. Sometimes Respondent missed a single day, other times, she missed several days and at one point, she went ten consecutive days without calling into the program.

See Charges at ¶¶ 3-6.

5. In a disciplinary hearing, the state has the burden of proof. To satisfy its evidentiary burden, it must "show by a preponderance of the evidence that [a licensee] has engaged in unprofessional conduct." 3 V.S.A. § 129a (c).

6. At the hearing, Respondent did not dispute the material factual allegations, which the State contends support a finding of unprofessional conduct.

7. The State therefore meets its statutory burden of proof. *Id.*

8. In her defense, the Respondent testified and the evidence demonstrated that she was not working as a nurse during much of the time at issue. It was Respondent's belief that the conditions did not apply when she was not engaged in licensed professional work.

9. Regardless of how the Respondent thought the license conditions applied or should have applied, the plain language of the order required the Respondent to participate in the Board's approved toxicology screening program. The facts demonstrated at the hearing were that the Respondent failed to meet the obligations of the order governing her license.

10. The State charges Respondent with violating 3 V.S.A. §129a(a)(4)(violating a term of condition of a license is unprofessional conduct).

11. The Board finds that Respondent did precisely that, violated the terms of an order

setting forth conditions on her license in violation of §129a(a)(4).

12. The violation of §129a (a)(4) constitutes unprofessional conduct, and the Board finds the unprofessional conduct demonstrates a need for a suspended license to protect the public.

13. The Respondent's license shall remain suspended pending a demonstration by the licensee that she can practice safely.

ORDER

Based on the findings of fact and conclusions of law set forth above, the Board of Nursing ORDERS the Respondent's license be SUSPENDED INDEFINITELY.

If the Respondent fails to provide such notification, it will be considered a violation of this Order.

(19) License Renewal.

After the conditional license period, the Respondent may petition the Board to remove any and all conditions on her license. The Respondent must present proof that she has full complied with the terms of this Order. The Respondent must also present proof of successful drug abuse rehabilitation and she must demonstrate, to the satisfaction of the Nursing Board, that she poses no danger to the public or the practice of nursing and that she can safely and competently perform the duties of an R.N.

C. This Stipulation and Consent Order is a matter of public record and may be reported to other licensing authorities as provided in 3 V.S.A. §129(a).

(5) Reports from Treating Professional.

Respondent shall authorize and cause her treating professional to submit to the Board evidence of satisfactory progress with the treatment plan during the effective period of this Consent Order. Respondent shall authorize her treating professional to provide all information requested by the Nursing Board, either orally or in writing, at any time during the period this Consent Order is in effect.

(6) Notification to Employers/Nursing School.

Respondent shall provide a copy of this Stipulation and Consent Order to all employers in any current or future setting during the conditioned period in which Respondent practices as a nurse and inform them of Respondent's conditional license status.

Within ten (10) days of the commencement of nursing employment and of any subsequent nursing employment, Respondent shall cause Respondent's immediate supervisor to write to the Board, on the employer's letterhead, acknowledging receipt of the Stipulation and Consent Order and the ability to comply with the conditions in the Consent Order.

In the event Respondent is attending a nursing program which has a clinical portion which involves actual patient care, he shall provide a copy of the Stipulation and Consent Order to the Program Director. Respondent shall cause the Program Director to write to the Board, on school letterhead, acknowledging receipt of the Stipulation and Consent Order and ability of the program to comply with its conditions during clinical experience.

This report shall be submitted in writing on forms issued by the Board.

In the event the Respondent is attending a nursing program, Respondent shall cause the Program Director to submit to the Board, on a monthly basis, a written evaluation of her performance and attendance. This report shall be submitted in writing on forms issued by the Board and accompanied by a cover letter on the school's letterhead.

(8) Administration of Medications.

This condition may be removed only by the Respondent filing a petition with the Board after she has worked as nurse for twelve (12) weeks for at least 40 hours work every two weeks (or the part time equivalent) after the entry date of this Order.

In any such petition, the Respondent must demonstrate, to the satisfaction of the Nursing Board, that she can safely and competently administer such medications. (9) Practice Under Supervision.

(12) Drug Use Exception.

Respondent shall not take controlled substances unless necessary. Respondent may take scheduled/controlled medications lawfully prescribed for a bona fide illness or condition by a physician, dentist, or nurse practitioner whose identity shall be made known to the Board in writing by Respondent within forty-eight (48) hours of the establishment of the practitioner/patient relationship. Respondent shall inform the Board in writing of all scheduled/controlled medications prescribed, including the name of the prescribing practitioner, within forty-eight (48) hours of receiving the prescription.

The Board or its designee may request at any time that the practitioner document the continued necessity for the prescribed scheduled/controlled medications if the term exceeds 14 days. This includes medications to be administered as necessary. It is not anticipated that Respondent would be prescribed scheduled/controlled medication, during the term of this Consent Order, for a period greater than 14 days, but if so, then the conditions herein may be revoked by the Board.

Respondent shall keep a written record of all medications taken, including over the counter drugs, and produce such record upon the request of the Board or its designee.

(16) Out of State Practice/Residence.

Before any out-of-state practice or residence can be credited toward fulfillment of these terms and conditions, Respondent shall first obtain approval from the Board prior to Respondent leaving the State of Vermont. If Respondent fails to receive such approval before leaving the State, none of the time spent out-of-state will be credited toward the fulfillment of the terms and conditions of this Consent Order. The Board will approve out-of-state practice so long as the Respondent can still comply with the provisions of this Consent Order.

(17) Notification of Place of Employment/Personal Address/Telephone Number.

Within five (5) days of the date of entry of this Consent Order, Respondent shall notify the Board, in writing, of her current place of employment, personal address, and telephone number. Respondent shall further notify the Board, in writing, within forty-eight (48) hours of any change in employment, personal address, or telephone number.

If the Respondent fails to provide such notification, it will be considered a violation of this Order.

(19) License Renewal.

If the Respondent's license expires while this Order is still in effect, this Order does not automatically extend the license. In that situation, in order to continue to practice nursing, the Respondent must timely apply for renewal, pay the applicable fee and demonstrate that she has otherwise complied with the requirements for license renewal.

After the conditional license period, the Respondent may petition the Board to remove any and all conditions on her license. The Respondent must present proof that she has full complied with the terms of this Order. The Respondent must also present proof of successful drug abuse rehabilitation and she must demonstrate, to the satisfaction of the Nursing Board, that she poses no danger to the public or the practice of nursing and that she can safely and competently perform the duties of an R.N.

B. Notwithstanding any provision above, the Respondent must continue to meet all Nursing Board requirements for maintaining a license, license renewal and license reinstatement.

C. This Stipulation and Consent Order is a matter of public record and may be reported to other licensing authorities as provided in 3 V.S.A. §129(a).

In the event the Respondent is attending a nursing program, Respondent shall cause the Program Director to submit to the Board, on a monthly basis, a written evaluation of her performance and attendance. This report shall be submitted in writing on forms issued by the Board and accompanied by a cover letter on the school's letterhead.

This condition may be removed only by the Respondent filing a petition with the Board after she has worked as nurse for twelve (12) weeks for at least 40 hours work every two weeks (or the part time equivalent) after the entry date of this Order.

In any such petition, the Respondent must demonstrate, to the satisfaction of the Nursing Board, that she can safely and competently administer such medications. The Board or its designee may request at any time that the practitioner document the continued necessity for the prescribed scheduled/controlled medications if the term exceeds 14 days. This includes medications to be administered as necessary. It is not anticipated that Respondent would be prescribed scheduled/controlled medication, during the term of this Consent Order, for a period greater than 14 days, but if so, then the conditions herein may be revoked by the Board.

Respondent shall keep a written record of all medications taken, including over the counter drugs, and produce such record upon the request of the Board or its designee.

(16) Out of State Practice/Residence.

Before any out-of-state practice or residence can be credited toward fulfillment of these terms and conditions, Respondent shall first obtain approval from the Board prior to Respondent leaving the State of Vermont. If Respondent fails to receive such approval before leaving the State, none of the time spent out-of-state will be credited toward the fulfillment of the terms and conditions of this Consent Order. The Board will approve out-of-state practice so long as the Respondent can still comply with the provisions of this Consent Order.

(17) Notification of Place of Employment/Personal Address/Telephone Number.

Within five (5) days of the date of entry of this Consent Order, Respondent shall notify the Board, in writing, of her current place of employment, personal address, and telephone number. Respondent shall further notify the Board, in writing, within forty-eight (48) hours of any change in employment, personal address, or telephone number.

If the Respondent fails to provide such notification, it will be considered a violation of this Order.

(19) License Renewal.

If the Respondent's license expires while this Order is still in effect, this Order does not automatically extend the license. In that situation, in order to continue to practice nursing, the Respondent must timely apply for renewal, pay the applicable fee and demonstrate that she has otherwise complied with the requirements for license renewal.

After the conditional license period, the Respondent may petition the Board to remove any and all conditions on her license. The Respondent must present proof that she has fully complied with the terms of this Order. The Respondent must also present proof of successful drug abuse rehabilitation and she must demonstrate, to the satisfaction of the Nursing Board, that she poses no danger to the public or the practice of nursing and that she can safely and competently perform the duties of an R.N.
