Dear Sir or Madam:

In Reference 1, Entergy Nuclear Operations, Inc. (Entergy) deferred the supplement to the Vermont Yankee (VY) Cyber Security Plan until after the NRC staff has provided direction on further revision. In Reference 2, the NRC issued requests for additional information (RAIs) on the VY Cyber Security Plan with responses due by February 15, 2011. Entergy's responses to the RAIs are provided in Attachment 1. Changes to Section 4.3, "Defense-In-Depth Protective Strategies," of the VY Cyber Security Plan will be made in accordance with the RAI responses as described in Attachment 1. In addition to resolution of the issue identified in Reference 1, other common industry issues are being resolved (i.e., cyber security records retention and implementation schedules). Therefore, the VY Cyber Security Plan containing the changes due to the RAI responses will be submitted when the common industry issues are resolved.

Entergy requests that Attachment 1, which contains security-related information (S-RI), be withheld from public disclosure in accordance with 10CFR2.390.

The new commitment contained in this submittal is provided in Attachment 2.

Should you have any questions concerning this letter, or require additional information, please contact Mr. Robert Wanczyk at 802-451-3166.

I declare under penalty of perjury that the foregoing is true and correct. Executed on February 15, 2011.

Sincerely,

MJC/JMD
