

Request for Report on Routine Radioactive Emissions from Vermont Yankee

Dear Ms. Miller and Dr. Irwin,

At the October 19 VSNAP meeting in Vernon Elementary School, I requested that Dr. Irwin obtain and publicize, each month, the routine radioactive emissions from Vermont Yankee, by substance and using standard units.

I went to healthvermont.gov to the radiological health section and am not certain how to find this information. I trust that Dr. Irwin has complied with this request and ask for your assistance or direction in finding this information at the website.

Many thanks.

Yours sincerely, Marcia Gagliardi
