Subject: Western evacuation location question for VSNAP meeting

Hello all- I can not attend the VSNAP meeting tonite in Vernon but I would like to find out, on behalf of the people in Marlboro and all who live west of the I-91 corridor, what is happening with the West evacuation Center? I was briefly the MARlboro EMD and during that time we advocated for and got agreement to develop such a Center. The recent Calendar shows no sign of this Center and the Evacuation routes for all of us, including Marlboro and West Brattleboro school children, is either to Bellows Falls or to Keene- well, it ain't gonna happen and we all know that. Progress on this front? Thanks, Dan MacArthur MARlboro.
