

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

July 3, 2013

LICENSEE: Entergy Nuclear Operations, Inc.
Entergy Nuclear Vermont Yankee, LLC

FACILITY: Vermont Yankee Nuclear Power Station

SUBJECT: SUMMARY OF JUNE 12, 2013, PUBLIC CONFERENCE CALL WITH
ENTERGY NUCLEAR OPERATIONS, INC. TO DISCUSS DRAFT REQUEST
FOR INFORMATION RELATING TO THE OVERALL INTEGRATED PLAN IN
RESPONSE TO NRC ORDER NUMBER EA-12-049 (TAC NOS. MF0779)

On June 12, 2013, a public conference call was held between the U.S. Nuclear Regulatory Commission (NRC), and representatives of Entergy Nuclear Operations, Inc. (Entergy, the licensee), at NRC Headquarters, Rockville, Maryland. The meeting notice and agenda, dated May 31, 2013, is located in the Agencywide Documents Access and Management System (ADAMS) under Accession No. ML13150A218. The purpose of the meeting was to discuss the NRC staff's draft request for additional information (RAI) relating to the February 28, 2013, submittal by Entergy of the Overall Integrated Plan for Vermont Yankee Nuclear Power Station (VY) (ADAMS Accession No. ML13163A258), in response to NRC Order EA-12-049, "Order Modifying Licenses with regard to Requirements for Mitigation Strategies for Beyond-Design-Basis External Events (Effective Immediately)," dated March 12, 2012 (ADAMS Accession No. ML12056A045). The RAI questions were issued on June 17, 2013 (ADAMS Accession No. ML13163A258).

A list of meeting attendees is provided in the Enclosure to this meeting summary.

Meeting Summary

The meeting focused on clarifying the draft RAI questions to promote common understanding of the questions. RAI question nos. 4, 36, 37, 39, and 50 were discussed for clarification purposes. Entergy discussed their general approach in addressing RAI questions regarding hardened containment vent systems (RAI question nos. 15, 58, and 59); severe accident conditions (RAI question nos. 68, 69, and 70); and other general technical areas in RAI question nos. 7, 26, and 52. Entergy also noted that RAI nos. 2, 9, 33, 34, 35, 47, 48, 49, and 67 are generic concerns that the industry plans to generate white papers and schedule future meetings with the NRC staff to resolve. The licensee intends to credit the industry's generic activities to address these questions. The licensee also indicated that the information requested in RAI question nos. 1, 3, 8, 15, 17, 19, 24, 25, 27, 28, 29, 30, 31, 32, 46, 58, 59, 61, 65, and 66 will not be available until later in the design process and will be submitted to the NRC with the 2nd 6-month update report in February 2014.
