Re: Petition of Entergy Nuclear Vermont Yankee, LLC, and Energy Nuclear Operations, Inc., for its Certificates of Public Good and Approvals required under 10 V.S.A. §§ 6501-6504 and 30 V.S.A. §§ 231(a), 248 and 254, for authority to renew operation of the Vermont Yankee Nuclear Power Station, including the storage of spent-nuclear fuel, after March 1, 2012.

Dear Dave:

At your request, the Vernon Police Department has reviewed the impact on municipal and governmental services and the public health and safety of the proposed continued operation of the Vermont Yankee Nuclear Power Station, including the storage of spent-nuclear fuel ("SNF"), after March 21, 2012, in Vernon, Vermont. Following such review, it is the position of the Vernon Police Department that the proposed re-licensing of the Station will not overburden municipal and governmental services in the Town of Vernon, and will not have an adverse effect on the public health and safety.

Sincerely,

Chief Kevin D. Turnley
Vernon Police Department
